INTRODUCTION

Conference "Management and Safety - M&S" reached 13th edition due to loyal authors and participants and hereby joined the rank of successful traditional and international scientific and professional conferences.

The conference has a successful history, and a promising future: human, social and economic aspects of safety, the constant emergence of new risks, and thus the need for effective and preventive measures and forms of protection, and, above all, the need for international cooperation in research and development of safety management.

Since the first conference held 2006th year (M&S 2006) to the 12th Conference (M&S 2017) gathered a total of 1,884 authors and participants: presented a total of 574 papers, which were reviewed and categorized as scientific and professional papers published in full in the proceedings of a total of 5,910 pages.

In the last years by the program cycle: "Basic functions of management and safety" (M&S 2010 - M&S 2014) conferences topics were: "Planning and safety", "Organization and safety", "Human resources management and safety", "Leading and safety" and "Controlling and safety". That program cycle presented relationship between safety and basic functions of management, thoroughly and in a unique way in global terms of the profession and science of management and safety. Previously, conferences topics were "Integrated management system and safety" (M&S 2008), "Crisis management and safety" (M&S 2009).

A new five-year program cycle of conference titled "Modern concepts of management and safety" determined with the annual topics: "Stress management and safety" (M&S 2015), "Sustainable development and safety" (M&S 2016), "Knowledge management and safety" (M&S 2017), "Project management and safety" (M&S 2018) and Process Management and Safety" (M&S 2019). Those themes are a challenge for an international cooperation on scientific research and development projects, solving problems and providing models of synergy of modern concepts of management and safety of people, property and environment.

13th International Conference "Management and Safety - M&S 2018" has the current topic "Project management and safety".

TOPICS

Project management and safety

International and national documents of project management.

International project management.

Regional and local project management.

Standards of project management.

DATE AND PLACE

Friday and Saturday, June 8th and 9th, 2018

Ohrid, Macedonia

Hotel

Hotel in Ohrid will be determined later.

Ohrid

Ohrid is a city in the Republic of Macedonia and the seat of Ohrid Municipality. It is the largest city on Lake Ohrid and the eighth-largest city in the country, with over 42,000 inhabitants. Ohrid is notable for once having had 365 churches, one for each day of the year, and has been referred to as a "Jerusalem (of the Balkans)". The city is rich in picturesque houses and monuments, and tourism is predominant. It is located southwest of Skopje. Ohrid and Lake Ohrid were accepted as Cultural and Natural World Heritage Sites by UNESCO.

ORGANIZED TRAVEL

ESSE (by the travel agency) going to organize bus on route:
↔ Čakovec-Zagreb-Beograd-Niš-Skopje-Ohrid.
